

EIP2

ERBE Irrigation Pump

EIP2 Irrigation Pump Features:

The ERBE EIP 2 provides a pulsatile jet of sterile water for rinsing substances such as blood and fecal matter from the procedural site and instruments.

Works in open and endoscopic procedures

Allows delivery of pressurized lavage for improved visualization in difficult procedures.

Uses only disposable ERBEFLO accessories for optimum time savings

Eliminates bottle and tubing reprocessing.

Pre-set buttons offer customized flow rates

Flow rate can be programmed and adjusted in 1% increments for best effect.

Clear flow rate display

Flow rate display helps facilitate easy changes.

High volume irrigation

The EIP 2 can deliver up to 500 ml/minute.
